## Palander 2011 pants MEN

### Materials

4-way stretch material that is waterproofed and breathable.

Waterproofness 20 000mm

Breathability 20 000g/m<sup>2</sup>/24h

DuPont Thermolite 40g padding developed by DuPont.

Padding is extremely fine and warm for its weight. The insulating fibre has been designed to work together with waterproof and breathable surface materials. The hollow structure of the fibres guarantees excellent thermal insulation even in extreme conditions. The Thermolite padding withstands use and washing well

ACTIVE DRY lining that wicks moisture efficiently away from your skin and keeps you feeling pleasantly dry even in intense use. The material does not absorb water itself so it dries quickly

### Details

Removable braces with step less adjustment option

Pants can be converted into a waist model with the aid of a zip that removes the high back section

High back made from breathable mesh material so that breathability to the lower back does not suffer

Inner leg and back of calves which may come into contact with ski edges are reinforced

Snow gaiters inside leg cuffs keep snow and moisture out

The cut is designed with the downhill skier's stance in mind

Front pockets with water repellent zippers

Velcro adjustable waist with belt loops

Zipped ventilation in the back ensure maximum comfort

### Sizes available

XXS, XS, S, M, L, XL, XXL, XXXL
