Koitos Print Lady jacket

With this product we recommend

Materials

Waterproofed and breathable DrymaxX stretch material

Waterproofness 12 000mm

Breathability 25 000g/m²/24h

Dupont Thermolite 80g insulation

Padding is extremely fine and warm for its weight. The insulating fibre has been designed to work together with waterproof and breathable surface materials. The hollow structure of the fibres guarantees excellent thermal insulation even in extreme conditions. The Thermolite padding withstands use and washing well

ACTIVE DRY lining that wicks moisture efficiently away from your skin and keeps you feeling pleasantly dry even in intense use. The material does not absorb water itself so it dries quickly

Details

Detachable hood with 3-dimensional adjustments and storm-peak

Pull out thin stretch hood inside the collar that can be worn under a ski helmet

Water repellent pockets

Diagonal under arm ventilations

Secured ski pass pocket

Safety strap for mobile phone

Ear plug opening from mobile phone pocket

Zip removable snow gaiter with lycra
